

FOR OPERATING ROOMS

PURO Disinfection Package

A complete disinfection program including full-spectrum Helo F2 UV light engines, plus PURONet with safety control, data collection, and reporting.

4 Helo F2s

PURONet UV Disinfection Control System

Exterior Touch Screen

In-Room Screen

Motion Sensors

Control Box

Add safety and operational reporting with this complete PURO UV disinfection package. PURONet is both smart and economical, allowing powerful disinfection without the added cost of full time employees or expensive maintenance associated with portable UV machines, potentially saving up to \$75,000 per year.
